

INDEX

Development of novel cell therapies using stem cells in umbilical cord blood and cord tissue	Hideo Mugishima et. al	1
Development of new therapy of allergic diseases by inhibition of human mast cell activation	Yoshimichi Okayama et. al	8
Basic study of the morphological feature survey using preoperative imaging of hepatocellular carcinoma	Hisashi Nakayama et. al	18
Analysis of rearrangement of HBV integration in patients with HCC.....	Shunichi Matsuoka et. al	24
Elucidation for novel mechanisms of IgE-dependent mast cell activation	Chisei Ra et. al	32
Analysis of the genetic polymorphism from lung biopsy to decide personalized therapy	Ichiro Tsujino et. al	39
Prediction of Lethal Arrhythmia by 3-Dimensional Reconstruction of the Cardiac Magnetic Resonance Delayed Enhancement Imaging	Ichiro Watanabe et. al	41
Analysis of rearrangement of HBV integration in patients with HCC.....	Kazushige Nirei et. al	43
Four-Dimensional Observation of Unstable Plaque Rupture in Coronary Artery	Yuxin Li et. al	47
Clinical significance of the GLUT-1 expression in the pulmonary carcinoma	Tatsuhiko Nishii et. al	50
Study of cord blood stem cells from early gestational ages	Taro Matsumoto et. al	53
Molecular pathophysiology of intervertebral disc degeneration analyzed by proteomics of laser-microdissected samples	Mariko Esumi et al	55
Analysis of correlation between SNP of IL28B and pathogenesis in chronic hepatitis C	Shunichi Matsuoka et. al	57
Relationship between the non-motor complication and genetic background in Parkinson disease	Akihiko Morita et. al	60
Study of lipid nutrition mismatch after birth in low birth weight infants	Michio Miyashita et. al	62
TRAIL/diallyltrisulfide-induced apoptosis in human melanoma cells	Yoshihiro Suzuki et. al	64
The pressure resistance of mechanical sutures in the bronchial stump	Shinichirou Ishimoto et. al	69
Identification of regulatory factors in the airway epithelial permeability	Yasuhiro Gon	71
Impact of Atrial Fibrosis Derived From Integrated Backscatter on the Outcome of Catheter Ablation for Atrial Fibrillation	Yasuo Okumura et. al	73
Development of novel antibody drug to chemoresistant and advanced pancreatic ductal adenocarcinoma	Makoto Sano	76
Hemodialysis for Removing the Contrast Medium from the Coronary Sinus during Coronary Angiography — a Novel Approach to Prevent Contrast-Induced Nephropathy in a Swine Model.....	Seiji Fukushima et. al	78
Development of control algorithm for biventricular assist system	Kin-ich Nakata et. al	81
Mechanisms of plaque progression and regression in coronary artery atherosclerosis.....	Atsushi Hirayama	85
Cellular and Molecular Medicine of Refractory Immune and Allergic Disease	Chisei Ra	88
Study on the mechanism of exaggeration by both influenza virus and oral/respiratory tract bacteria and the pathogenesis of exaggeration for respiratory disease	Tatsuo Yamamoto et. al	94
Researches to develop advanced medicines based on the chemical genomics	Noboru Fukuda et. al	99
Dual-lead SCS for the treatment of post-stroke pain	Takamitsu Yamamoto et. al	105
Role of the Section of Morphology and Recent changes of User's needs	Koichi Inoue et. al	111
Performance comparison between tandem quadrupole type mass spectrometer Quattro Premire XE and Xevo TQ-S tandem	Kazuhiro Watanabe et. al	115
Changes of F-wave induced by rTMS of the motor cortex	Takamitsu Yamamoto et. al	129
Radionuclide in the air of Nihon University School of Medicine.....	Eiichi Sanuki et. al	133
Medical Research Activities Supported by the Section of Laboratory Animals.....	Junichi Fujita et. al	136
